

PERDANA UNIVERSITY

POSITION DESCRIPTION

Job Title : Lecturer/Senior Lecturer in Biomedical Engineering

Reports To : Dean, Perdana University Graduate School of Medicine (PUGScM)

Department/Branch : Perdana University Graduate School of Medicine (PUGScM)

Closing Date : 31st October 2020

Responsibilities:

- To engage in high-quality teaching and fulfill the teaching requirements of the relevant school or department.
- To engage in high-level research, implement new developments in the academic discipline, make influential achievements in relevant fields, enhance his/her own international academic influence, and be an internationally active academic member.
- To facilitate international academic communication and research cooperation, build an international reputation, and strive to become a leading personality in the academic discipline.
- To deliver and promote teaching in his or her field.
- To supervise students working on their theses.
- Actively participate in the development of teaching and curriculum design.
- To pursue and supervise scientific research in his or her field.
- To keep track of scientific progress in his or her field.
- To interact with the broader society and engage in international collaboration.

This is not intended to be an exhaustive list of all duties and responsibilities. The employee may be required to carry out other duties and responsibilities as may reasonably be required of the employee to do so by the Chairman of the Board or his nominated person(s).

Skills and competencies:

- Sensitivity to the cultural challenges involved in delivering undergraduate education in a diverse multi-cultural environment.
- Highly developed, credible managerial and leadership qualities, with the ability to communicate, motivate and delegate.
- Strong commitment to continuous personal and professional development.
- Effective communication style appropriate to audience and situation.
- Excellent spoken and written English skills.
- Ability to act decisively and meet deadlines.
- Flexibility to work irregular hours on occasion.

Requirements:

- Completion of a recognised post-graduate degree in the related field (PhD/MD).
- Preferably with a basic medical degree.
- Previous academic experience is advantageous.
- Interest for research.
